GENERAL NEWS.

U. S. Board of Trade

NEW YORK, Nov 15—The U S board of trade this morning adopted the following resolution

Resolved, That this convention heartily approves the steps agreed upon by the secretary of the treasury and the New York bankers for the national resumption of specie payments and that the standing committee of this board on national finance and currency be requested to give all practicable aid in securing congressional or executive measures to bring complete effect to the resolutions passed upon this subject by the New York clearing house.

Committees were appointed to present to the U S. governments the importance of entering into advantageous commercial relations with other countries, by either general or special treaties and to represent the U S board of trade at the proposed ship canal convention Chauncy J Wiley of St Louis was elected president of the board and S B Herrington, of Cincinnati vice president

More Body Snatching

LAWRENCEVILLE, O., Nov 14—At 4 o clock this morning a policeman on the bridge had his suspicions aroused at the movements of a wagon and upon pursuing them for 20 miles, they left the wagon and with it four bodies of prominent citizens lately deceased and buried at Woodlawn cemetery

Paying off the Halifax Award.

NEW YORK, Nov. 14—The United States government has through a banking house in this city completed the purchase of sterling exchange to the amount of about eleven hundred thousand pounds to meet the five and a half million dollars required by the Halifax award to be paid to the British government at London on the 25d inst and the agent of the United States treasury department will make the transfer at London on that day.

The "Counting Out" in Florida.

JACKSONVILLE, Nov 14—Chief Justice Randall has ordered a special session of the supreme court to convene at Tallahassee, Saturday, when the petition for mandamus against the county canvassing boards will be presented. (colored) inspector of the county was passed yesterday and bailed to day for $5,000.

Striking Matter—Only Twelve Negroes Killed.

NEW ORLEANS Nov 14—Col Frank Zach ry, who was sent by Gov Nicholls as special agent to Texas to report the true condition of affairs there has returned and submitted a lengthy report He says notwithstanding the exaggerated reports from Texas he could only succeed in finding that twelve negroes had been killed

Arrests in South Carolina.

CHARLESTON Nov 14—Two additional arrests were made to day of parties charged with crimes against the U S laws at the recent election.

The Nebraska Hostilies.

GEN. ROBINSON, Nov 13—Several Sioux chiefs, conspicuous among them Long Wolf, Red Cloud and Yankton Charley left here at noon for the sand hills 70 miles southeast This camp is probably the rendezvous of Lit tle Wolf's murderous band These experienced scouts will be followed by 100 cavalry commanded by Lieut Elting who will take up the trail about the Sioux discover it

The Labor Committee.

HARRISBURG, Pa., Nov 14—The Hewitt labor committee, commenced work to day Five witnesses were examined, who traversed the entire range of grievances which the striking and laboring classes are suffering under the present hard times and attributed their cause to different things—freight discrimination by consolidation and over-population He said he would have congress take up the matter of railroads they should be compelled to regulate their mining business After similar testimony the committee adjourned *sine die*.

A Sharp Financial Trick.

NEW YORK Nov 14—There is some apprehension that the parties who distrust the ability of resumption will make especial efforts to get gold notes into their possession before the 1st of January with a view to locking them up and so promoting a speculation in gold. It is suggested that in order to prevent this Secretary Sherman may exercise his discretion and cease issuing such notes at once

WASHINGTON CITY.

Commissioner Williamson's Recent Decision, and Other Land Matters.

WASHINGTON, Nov 13—Commissioner Williamson, of the general land office has been greatly surprised by the receipt of numerous telegrams based upon an apparent supposition that his formal action to day in the matter of the Union Consolidated and Sierra Nevada controversy was some new and important decision. He says, on the contrary, that there is absolutely nothing in this action which affects the title to the ground in controversy, beyond what was affected by his published decision of the 4th of last August When advising the Carson City local land officers how to proceed, he wrote as follows "You will request the proper representatives of the patentee to surrender the patent to you that it may be returned to this office for cancellation If this request is refused I shall recommend that the Sierra Nevada Co be authorized to institute proceedings in the U S court in the name of the United States to test the validity of the patent issued to the Union Consolidated Silver Mining Company. The register and receiver reported under date of September 23d that the demand was made on August 22d and refused September 18th Attorneys of the Consolidated Co in the meantime declined to appeal to the secretary of the interior, but that officer decided there could be no appeal taken from the commissioner's decision, because it would not be final even if an appeal from, being in fact only a refusal for putting the matter into the courts for adjudication Nothing then remained for the commissioner to do but to carry into effect the official statement of August 14th and as the delay is entirely safe to assume, as it has been assumed in certain quarters that he would make his promised recommendation any day when the papers including a copy of the letter of August 14th should be prepared for transmittal This clerical labor was completed last Monday they were to be sent to Secretary Schurz with a letter dated the 11th, informally reciting the various proceedings and concluding as follows "I have the honor to transmit herewith the patent in the case and to recommend that the same be forwarded to the Hon attorney general of the United States with the request that the Sierra Nevada Co be authorized to institute proceedings in the proper United States court in the name of the United States to test the validity of a patent issued to the Union Consolidated Silver Mining Company.

It will be noticed that before the matter can be placed in the course of judicial determination through the channel thus recommended that the concurrence of both Secretary Schurz and Attorney General Devens must be secured and it is therefore under stood that argument on the subject will be had by both of them together at an early date Mr Bobt. Gardner formerly state surveyor general, has preferred charges to Sec y Schurz against Surveyor General Wagner alleging that he in the interest of speculators, has caused lands to be surveyed which were not within the authorized classes in order to locate fractional townships for location on behalf of state school land indemnity certificates Schurz and Commissioner Williamson have referred the department to day for report on the matter but it had yet to day received only the unsworn and unsupported form in which the charges were recently received but a telegram from Gardner announcing that he had yet to day forwarded affidavits in support of them

The President's Views Again

WASHINGTON Nov 14—Published statements concerning the president views on the silver question seem to have been examined in both directions The facts appear to be that the administration has decided upon no new steps but that the president is thoroughly in earnest It is his intention to protect U S citizens when their rights are violated irrespective of their political faith The instructions recently referred to in these dispatches as having been issued by the attorney general obviously contemplated this object though there has been no change in their original tone and temper

The Greenback Members

WASHINGTON Nov 14—Indications already point to an effort to consolidate the twenty representative elected to the next congress chosen as Independents or Greenbackers into a third party organization to co operate for the exercise of the balance of power between the regular Democrats and Republicans The chances however are that most of the Greenbackers will usually act with the Democrats on the ground of substantial accord in financial views and purposes It is not improbable however that enough of the Independents may hold a separate caucus to defeat the selection of the speaker and other officers of the house Prominent Greenback leaders urge that their only hope of success lies in a new political organization especially as the recent elections show that the east repudiates them and their avowable allegiances must be with the west

THE ARMY

Report of Gen Sherman—Discussion of the Indian Question—Condition of the Army

WASHINGTON Nov 14.—Gen. Sherman has submitted his annual report to Secretary McCrary In it he refers to reports of different commanders of military departments, and invites particular attention to that of Gen Sheridan His command says Gen Sherman embraces eight of the ten regiments of cavalry and 18 of the 5 regiments of infantry which compose the entire army and although he states this force to be entirely inadequate to perform the duties required, yet it is impossible further to reinforce him, without stripping the seaboard or abandoning other territories subjected to the same dangers which he geographically describes in his own His territorial command is 1 500 miles long and 1 200 miles broad This vast region has in the past ten years undergone a radical change From being the pasture field of millions of buffalo elk etc. affording abundant food for Indians it has passed into a farming country traversed by many railroads The game is nearly all gone and the Indian has been forced upon small Reservations. Nearly all the Indians treaties were made on the theory that this change would occur more slowly and that the government would have to furnish partial food for the Indians and that it would procure half or a quarter of the necessary meat by hunting Again it was a favorite theory that the Indian would see for himself a reason why he should cultivate the ground like white men but his progress in this respect is scarcely perceptible save in remnants of tribes like the Santees Pawnees Cherokees etc while the Sioux Cheyennes Arapahoes, Kiowas etc seem to prefer open war to common toil of the farmer Beyond question it was hunger which drove the Bannocks and Cheyennes to war this summer and similar escapades will occur each year unless these Indians be kept quiet with more food It seems idle to expect that the enterprising white race will cease to till every acre of this continent that is susceptible of cultivation It is not to be expected that these pasture fields can be used by the two races without everlasting conflict. The reservations already set apart for the Indians are large enough and should suffice them to raise all the meat and grain necessary for their subsistence but meantime they must have food else they will steal and fight. To convert these Indians into a pastoral race is the first step in the upward progress of civilization That of culture must be the next stage though slower of realization But in this direction is the sole hope of rescuing any part of the nomad Indians from utter annihilation This end cannot be reached by means of the present peace agents because persuasion is wasted on an Indian There must not only be a show of force but actual force and subjection used Force will be necessary to compel the nomad to cultivate his own ground There is a wide distinction among the tribes and each tribe must be dealt with according to its nature Large discretion to supply food must be lodged with the present or somewhere else Starvation will each year cause wars such as occurred this season with the Shoshones and southern Cheyennes The army cannot foresee or prevent these wars. All it can do after the Indians break out plunder or steal and kill harmless families is to pursue and capture them in detail after infinite toil, and then conduct them back to their reservations and turn them loose to return to the same *gauntlet again*.

Congress alone can provide a remedy Prevention is wiser than cure Money and discretion must be lodged somewhere in time to prevent starvation

Reports of Gens McDowell Howard and Wilcox describe the condition of affairs in the states and territories bordering on the Pacific ocean These Indians are collected by tribes and families on small reservations well apart so that Indian wars on a large scale, requiring concert of action are not probable Yet the Nez Perces war of 1877 and the Shoshone war of this summer show however, these small bands of Indians did a large amount of damage and caused great consternation The Pacific coast Indians depend much on fish for subsistence and the establishment of fisheries on the Lower Columbia is fast cutting off the supply Unless suitable regulations are adopted salmon will become extinct and the Indians will be driven to stealing and consequent war with the settlers. Reference is made to the danger of hostilities between Indians and settlers in Oregon and Washington territory, and also in Arizona owing to trespasses by whites The army is powerless to act in either case having no control or right to interfere except after hostilities are actually begun

The general repeats that the Indian problem is not a simple problem but many as many almost as there are tribes Measures which would be wise in one instances would be folly in another and whatever department of government is charged with it must be armed not only with force but large discretion and authority to furnish food in emergencies One regiment will probably have to go to the frontier in the spring from the division of the Atlantic It would be well if there could be held at points like Atlanta Leavenworth St Paul and Omaha in rotation a full regiment of infantry or cavalry for instruction but hitherto this has been impracticable

Gen Sherman dounts the wisdom of selecting and preparing in advance, as recommended by Gen Hancock posts and camps in the south against yellow fever The artillery school at Fortress Monroe is kept to a high standard and is fast becoming a post graduate course for officers. The general concurs in the recommendation of General Schofield that the September appointments of West Point be discontinued and further suggests that cadets be examined by the academic board early in June and that no cadets be examined or admitted after the 1st of July He questions, however, the wisdom of the recommendation that the standard for the admission of cadets be raised He thinks an erroneous impression is common that the academy will graduate more officers than are needed for the army but experience has shown that vacancies annually occur in the army to at least the number of 60 which is more than the average graduating class The report shows that there are 7,289 enlisted men in the 10 regiments of cavalry in the army 2 650 men in the 5 regiments of artillery and 11,305 men in the 25 regiments of infantry making a total of 21 664 Besides these there are in the engineer battalion 193 paramount and recruiting, parties music boys and recruits in depots 1 131 enlisted men retained on general service, 372 ordnance department 344 West Point detachments 190 prison guard, 71 hospital stewards 188 ordnance sergeants 134 commissary sergeants 148 and Indian scouts 340 total 3 097 making the whole number of enlisted men in the army 2 476

The report concludes I beg to state that from personal inspections and official reports I am sure the army is well and economically supplied its discipline and instruction are as good as could be expected from its scattered condition and from the vast amount of labor necessarily imposed on it It has not only cheerfully obeyed every call of duty and hardship but it has accomplished an amount of work which Gen Sheridan has well said no other nation in the world would have attempted with less than 60,000 or 70 000 men

ANOTHER DISCOVERY

HOW PELTON WENT TO BALTIMORE TO MEET WEED IN COMPLIANCE WITH THE LATTER'S REQUEST FOR $80 000 TO BUY THE SOUTH CAROLINA RETURNING BOARD

[From the New York Tribune Nov 1.]

Who went to Baltimore to carry to Smith Weed the money for the purchase of the South Carolina returning board On the 18th of November 1876 Weed telegraphed from Columbia to Henry Havemeyer—otherwise Colonel William T Pelton

Majority of board have been secured Cost is eighty thousand to be sent as follows One parcel of sixty five thousand dollars one of ten thousand and one of five thousand all to be five hundred or one thousand dollar bills notes to be deposited as parties accept, and given up upon vote of South Carolina being given to Tilden & friends The three packs should be sent without inscription and to night unless you receive telegram from me countermanding For God's sake let it go Have cash ready to reach Baltimore Sunday night.

Look well now You must have the Copeuing in at Barnums in Baltimore early Monday morning I go at 10 to night

The *Tribune* has already shown how Smith M. Weed, leaving Columbia on Saturday night, November 18th did arrive at Barnum's Hotel in Baltimore early Monday morning the 20th, registering there by his true name It was also shown at the time of the publication of the dispatches that there was every reason to believe that the safe man met him with the stuff according to appointment and that the failure of the scheme was attributable to other causes than neglect of the New York parties to put up the money

We have taken pains to verify certain information which reached us two weeks ago respecting this safe man The chain of evidence is now complete The register of the Mount Vernon Hotel a small and quiet house in Baltimore where a person of refined disposition might be safe from curious eyes shows among the arrivals early on Monday morning November 20 William T Pelton, of New York At 10 o clock Mr Pelton with a friend who had accompanied him from this city took a carriage Early in the day the friend was seen with Mr Smith Weed at Barnum's Hotel It was probably after this interview—to which it would not be rash to assume that Mr Pelton also was a party—that Smith Weed sent his first cipher dispatch to Columbia

BALTIMORE Nov 20

General J B Gordon Columbia Make arrangements by returning board agent Inform Haskell and telegraph bonds W

What occurred during the day to disturb the arrangement is not known but in another dispatch to General Gordon Weed asked that the supreme court might be hold on to the electoral vote because there might be a little delay and then at night Pelton and his friend once Weed all returned to New York

The fact that it was Colonel Pelton who made that journey to Baltimore at such a busy and critical time in compliance with Weed's request that he would bring the stuff in if it could be sent by mail or express but I will say Pelton actually would not have gone there just to tell Weed that I refer to the [illegible] *Herald* of [illegible] *Tribune* will show him $80,000 [illegible] the Smith Weed carried to Columbia returning board [illegible] Pelton's visit to Baltimore Nov 20 1877 U S Consul at Rio de Janeiro Brazil Centennial Medal for Philadelphia 1876 and Paris Exposition 1878 Orders

FRIDAY MORNING NOV 16 1878

MODERATION AND FORBEARANCE

That Tensas affair gotten up to overawe the colored voters just before election in one of the strongest Republican parishes in Louisiana was but a trifling matter after all The governor of the state sent a special agent to investigate who has returned with a report that he could find after all the fuss that only twelve negroes had been killed It seems therefore that there has been a good deal of unnecessary noise over the affair If it be true that a complete "conservative victory in that locality was obtained at the cost of killing only a dozen niggers it was cheap indeed Tensas in 1876 gave Hayes 3 20 votes and Tilden 161 It was one of those parishes which was not questioned even by the Democratic count In last week's election it gave but very few Republican votes The murders judiciously committed just before election day accomplished the purpose of conservative Democracy and gave them another member of congress The leaders in the state set out to obtain a solid delegation in the next congress and they have obtained it Their forbearance in not killing above a dozen niggers in a parish ought to confute forever those who allege that the election was not fair and who are always ready with base slanders to accuse the south of wrongdoing in order to get possession of the government

Dispatches sent from New Orleans since the election say that Caddo parish, heretofore Republican by 1 000, now gives 2 000 Democratic majority The Republicans abstained from voting in order to avoid a riot In Concordia Natchitoches Bossier and many other parishes heretofore heavily Republican no votes except Democratic were thrown In all parts of the state the conservative Democracy were organized just as in Tensas parish prepared to kill if necessary to carry the election but they showed how great was their moderation by refraining from any wanton exercise of their power, and only killed a dozen or so in places where it appeared impossible to carry the election without it All of which shows that they really didn't want to kill but simply had a purpose to win the election Gov. Nicholls is now informed by his agent in substance, that considering the circumstances it was all reasonable enough Such moderation is, indeed truly commendable particularly in the face of the provocation continually offered by the niggers who perversely show a disposition when ever an election is held to vote the Republican ticket, from which error it is indispensable to dissuade them But the conservative Democracy of Louisiana may point with pride and triumph to this report of the Tensas affair made by their governor's own agent and therefore authentic, as convincing proof that in this instance, of which so much has been made by unscrupulous journals at the north no unnecessary number of niggers was killed In fact the total foots up only about a dozen

A PRINCIPLE AND EXCEPTIONS

In the constitutional convention of California regulations have been proposed authorizing the exercise of reasonable legislative control over railroads These propositions have been met by an open letter from President Stanford, of the Central Pacific Company, who argues at great length against the right, justice and policy of such regulations. The railroad system of California is controlled by this company, which with the Union Pacific, also monopolizes the traffic across the continent. Hence the Central Pacific managers consider the proposition leveled altogether at themselves,

On general principles it is true that there should be no legislative restrictions upon business enterprise Capital should have free opportunity to engage in any undertaking without being subjected to burden or molestation If men venture their money in enterprises, great or small, they ought to have a chance to get all the results to which their industry, intrepidity and foresight entitle them Competition may in general, be trusted to regulate these things to the advantage of the public

But here is a very difficult case The Central Pacific Company did not build with private capital the roads they control The main line was built by money from the treasury of the United States, and other lines have been built by money which should have been refunded to government, but has been withheld. Other vast sums have been applied to the private uses of the managers. They control an enormous property which has been created wholly by the bounty of the country When, therefore, Mr Stanford says that, "if the control of railroads is to be taken from those who built them and who are entitled to the fruits of their industry, as other individuals engaged in other callings are, then railroad building must cease, or else the state itself must assume their construction and operation" he is not in this case talking to the point for these roads were not built in the way he describes And since they were built out of the public funds it is the duty of a legislative authority which represents the interests of the people to check and curb the rapacity of a monopoly made so powerful by the millions bestowed by the government But in this case congress rather than state legislatures ought to act And if there ever shall be a congress which is capable of rising above the corrupt influences exercised by these mighty corporations it will provide such regulations for these roads as will reduce the profits of their managers to something like reasonable limits and relieve the country of an enormous oppression

A few days ago the Salem *Statesman* asserted that in 1876 the editor of THE OREGONIAN (Mr Hill) was paid to make an argument in support of the Gabble fraud The assertion was not intended so much as a reflection on Mr Hill as a malicious insinuation against THE OREGONIAN By quoting from the files of THE OREGONIAN we showed that the paper protested against the Gabble fraud in advance of its consummation, denounced it after it was done and predicted that it would not stand Never did this paper contain a syllable in relation to the Gabble fraud which was not uttered in strongest condemnation of it and it was the only paper in the state which was conducted with an ability equal to a discussion of the subject A member of the law firm with which Mr Hill was connected did make an argument on the Gabble side of the case but Mr Hill through the columns of THE OREGONIAN steadfastly opposed it and gave the reasons why it was not in accord with law and right and why therefore it would fail The *Statesman* quotes from the testimony of Messrs Kelly and Bellinger to show how it fell into error on the subject desires to know if THE OREGONIAN will its apology Cheerfully if the *States* only reprint what we quoted from papers files the other day in bble fraud was opposed and denounced Since it has raised this question it can hardly do less if it wants to act with fairness and candor

If it be true as recently telegraphed that England and Austria signed a secret treaty at Berlin virtually pledging themselves to take measures by the first of May, 1879 to expel Russia from Turkey, discovery of this fact may be the thing which moves Russia to reoccupy important points in Turkey which she had formerly evacuated and to send reinforcements to her armies south of the Danube It is evident that Russia has relinquished none of the designs which England has long regarded as a menace to her own national policy The treaty of Berlin which was to check Russian aggressions is virtually nullified or disregarded Beyond doubt the Russian cabinet is watching closely the currents of popular opinion in England upon accurate knowledge of which depends greatly the problems which Russia has in hand Russia does not want war with England yet probably would hazard it rather than relinquish advantages in Turkey for which she has been striving during more than two centuries

Proceedings of the board of trade at the meeting had on Wednesday night refer to a matter which in the shape it has taken can not be called complimentary to the intelligence and independence of Oregon We are reminded of the fact that the commerce of this state in order to find free transit over the Columbia river bar is compelled to rely on the laws of Washington territory It is fortunate indeed, or Oregon as well as Washington that the latter passed the law of Nov 9, 1877 since, under that law, as our board of trade say for the first time in the history of Oregon pilotage on the Columbia river bar is now open to public competition Our own legislature at the late session owing to the activity of lobby influence, failed to pass the bill it should have enacted, and we therefore have the more reason to thank Washington territory for having done for us what we were too stupid to do for ourselves

Since the late elections the Democrats of Indiana are trying to create the impression that they carried the state on a hard money platform The *State Journal* says "Their attempt to get away from the record and to falsify it is in the interest of Mr Hendricks whom they hope to bring into favor with the eastern Democracy by falsely representing their recent victory in this state as a hard money victory." The simple fact is that the Indiana Democracy, although lacking 25,000 of a popular majority, carried the state by a small plurality on a soft-money inflation platform

What will the Democracy Do?

[From the Chicago Times.]

The rag baby has received a blow which puts that ill begotten offspring of political folly to bed in a very sick condition But what of the wet nurses, what are they to do? As to Thurman and Hendricks, and like presidency seeking demagogues, it is immaterial what they may do Politically, they are dead as dead as the galvanized mummy of Gramercy Park But they are not all of them wet nurses There is a considerable party of them a party styled "the Democracy" Where are "the Democracy" to go now What are they to do? They have abandoned the solid ground of no government interference with money They have changed position with their opponents They have surrendered the citadel of hard money to the Republicans With their historic idiocy they have swapped off the gospel of truth for the ravings of lunacy. They cannot go back They cannot resume the ground of hard money, now fairly in possession of the administration party except they abandon the only ground on which an opposition party stand They have chosen deliberately to get on the wrong side of the line, and have plainly no alternative but to fight for the miserable rag baby or lay down their arms

Alfonso's Grief.

After Mercedes' death King Alfonso passed every moment not absolutely needed for business of state, secluded in the Escurial, spending many hours in the vaults and declining to see any one. His table was always set for two, and he would remain gazing at the vacant chair opposite him, hardly touching a morsel of food It required the earnest representations of his family and ministers that this seclusion might breed popular discontent, to induce him to return to Madrid and resume his audiences and public appearances

The Memphis *Avalanche* praises the black for the good care taken of the residence property of the absent whites though many of them were destitute and had to be supported by public charity.

Don't worry about my going away, my darling. Absence, you know, makes the heart grow fonder" "Of somebody else," added the darling

Taking him down Young lady to a junior "Man should not be alone" Junior "Correct Young lady "Therefore he should buy a dog"

THE CATHOLIC FAIR.—The fair for the purpose of raising funds towards the erection of the new cathedral will be inaugurated at Red Men's hall on next Monday week A large number of handsome articles have been presented by the ladies having charge of the stalls. Good music will enliven the scene every evening, and the supervisory committee of the St. Vincent de Paul Society will see that the arrangements are such as to secure a pleasant time for all who attend. The following ladies, aided by numerous assistants, will preside at the fancy tables Mesdames C. Perrin, John Kelly and M Zan; Mesdames M. Carroll, C. Malarkey and D. Kelly, Misses J. O'Neill, L. The candy stand, wheel of fortune and other fancy sections will be announced next week.

ABOUT A DOG—The *Telegram* says. "A somewhat novel case is on trial to-day in the state circuit court. Some time ago a man living on Columbia slough named L D Hill shot at and severely wounded a valuable dog belonging to one of his neighbors named Richard Simons. For this offense Hill was indicted by the grand jury under section 508 of the statutes, which provides: "If any person shall maliciously or wantonly kill, wound, disfigure or injure any animal, the property of another, or shall willfully administer any poison to any such animal," etc., etc. "he shall be punished," etc., etc. The question was raised by the counsel for the defendant whether or not a dog constituted property. The question was argued at some length by the attorneys, and numerous authorities were cited."

MR. HILL, THE ARTIST.—A very handsome oil painting of Mount Shasta, with Castle Lake in the foreground, 30 by 50 inches, can be seen at Morse's show window. It was painted by Mr. Edward Hill, the young artist, and is a very creditable work of art. Mr. Hill contemplates starting for a trip to the mountains next Monday. He will approach within 20 miles of the base of Mount Hood for the purpose of making a sketch of the old mountain which in time will be transferred to canvas. Mr. Hill will be absent about two weeks, and will spend a portion of the time in hunting and fishing.

WELL LECTURED.—Dr. J. W. Watts will lecture upon Temperance in the M. E. church, New Tacoma, on Friday evening, the 15th of November, and in Bethel Hall, Old Tacoma, on Saturday evening, the 16th, using Dr. Hall's eight enlarged plates of the stomach, which show the effect of temperate drinking in its sure progress on to the end in delirium tremens and death. Lecture free. All invited.

PETIT LARCENY.—On complaint of W. W. Upp, W. Woika (who was arrested some time ago on a charge of horse stealing, but discharged on motion of the district attorney), was arrested yesterday charged with the larceny of a watch. Judge Page gave Woika a watch to repair some time ago. As Woika failed to return the watch he was arrested and the case will be investigated to-day in police court.

KEAN'S DOINGS.—In a private letter received by a gentleman in this city, occurs the following sentence: "Mr. Collins, the owner of the Occidental hotel in this city (Seattle) and of the Tenkalet House, Port Gamble, came home drunk, and his own son took a revolver and shot him in the head. He did not kill him, but the bullet cannot be reached and will probably end fatally."

E. church, New Tacoma, on Sunday, the 17th, morning and evening, and will administer the communion service at 12 M. and in Bethel Hall, Old Tacoma, at 3 P. M., holding the communion service afterwards. All professed disciples of Christ are invited to the Lord's table in both places.

FLORAL THIEVES.—Ladies in the city who are the possessors of choice pot plants should be very careful and keep them from the reach of those thieves who do not scruple to appropriate them to their own use, as a lady acquaintance can bear testimony, who had a beautiful rose geranium yesterday morning sheltered.

AMUSEMENTS.

MISS DARGON'S BENEFIT.—To-night this most deserving and artistic exponent of the art histrionic, will be the recipient of a grand complimentary testimonial at New Market Theater. The benefit has been tendered by a number of the prominent and influential men of Portland as a just recognition of the great merit of Miss Dargon. The compliment is as handsome as it is deserved. The lady in response to a letter addressed to her and numerously signed, has designated this evening as the time, new Market Theater as the place and "Queen Mary," (Tudor) as the piece to be rendered. This play has been carefully rehearsed and will no doubt be presented in a very acceptable manner. The New York *Sun* in alluding to this play says: "Her (Miss Dargon's) last part was in the character of "Queen Mary," in Tennyson's drama of that name, skillfully adapted for her by Mr Stephen Fiske. As the Tudor Queen," Miss Dargon was entirely satisfactory and the death scene was a masterly display of dramatic talent." Reserve your seats early as a rush is certain.

LONDON ASSURANCE.—One of the most delightful performances given at New Market theater since the commencement of the season, was the rendition last evening of Boudcault's comedy of "London Assurance." Miss Dargon appeared in the role of "Lady Gay Spanker," and created most immense mirth. Mr J. B. Robinson as "Max Harkaway," did some remarkably good acting and received as he deserved a liberal share of applause. Mr Lindsay as "Sir Harcourt," Mr Sutherland as "Dazzle," Mr. Allan as "Coal," Mr. Ward as "Meddle," Mrs Wade as "Grace" and Mr. Wade as "Charles Courtly," each did well and are worthy of praise. In no piece has the cast been such a happy hit, and certainly no more entertaining performance has been given in New Market theater for a long time.

SATURDAY'S MATINEE.—To-morrow afternoon, "East Lynne" will be produced. As Miss Dargon's engagement will close with Saturday night's performance, this will be the last matinee in which she will appear. Box sheet at Morse's.

The earnest sympathy of the speakers encouraged several persons to express a desire to turn to God, and for the benefit of such a second meeting was held after the firs. services closed at 2 P. M. within the greater par. of the congregation remained. A letter from Rev. Mr. Stratton of Seattle was read. It announced quite a revival interest in that city.

Fine upright pianos from $350 upwards to best Steinway. A selection for all customers. Call and see. He respectfully asks a trial and an examination of prices in comparison to others. Third street near Taylor, Portland, Oregon.

REMOVAL.—Edwards & Birmingham have removed their stock of furniture to the spacious warerooms over their former place of business in Centennial block, and are opening out a splendid assortment of furniture which they offer at very low prices. Call and be convinced.

IS THIS A HUMBUG?—Having still on hand 80 to 90 pieces of our damaged calicos, we offer the same at $1 per piece—each piece containing from 45 to 55 yards This is done to put an end to the nonsensical assertions of jealous merchants who claim that we wet these goods as a "bait." If this were so, we have been humbugging ourselves out of $2 to $3 on each of the 1,300 odd pieces which we have already sold, as the ladies of Portland, whom we have found to be excellent judges of values, would have bought them dry at the same prices and saved us much useless labor. IXL Auction Co.

THE GEM, ASTORIA.—Connected with Peter Wilhelm's, Astoria, is a Ship Master's Reading Room, where the latest shipping papers are on file. Also, Homeward and Outward Bound List, Western Union Telegraph Office next door.

INTERESTING TO LADIES.—Dickey's "Creme de Lis" has now been before the public for ten years, during which time this beautiful preparation has met with the highest approval at the hands of the fair sex—being as all who have used it will verify, the only perfect preparation of its kind. Every ingredient entering the composition of Dickey's "Creme de Lis" is subjected to the most rigid test of modern chemistry, to insure the uniformity and purity of its combination, and neither time nor expense have been spared to make it perfect—it being well known the public will appreciate and support a truly meritorious article Several new beautifiers entering various names, have lately started into existence, but Dickey's "Creme de Lis" has no competition in merit. Sold by all druggists.

PARAGRAPHIC DETAIL.

Only a little more than a third of the whole number of United States bonds now pay 6 per cent. interest.

Chicago is taking rapid strides towards a permanent supplanting of Cincinnati as the great pork packing city of the west.

At the present rate of payment, about $2,000,000 per month, the public debt of the United States will be wiped out in twenty years.

"I am told," says a careful Washington letter writer, "that Pelton has served Tilden quite as badly in some business matters as in political affairs."

The oldest house in America stands in Southold, L. I., and from the date of its erection in 1630 has been in continued occupation down to the present time.

The *World* says Beecher visited Barnum's a few nights ago, and chance and the usher piloted him to a seat exactly in front of Tilton. Tilton got up and moved to another part of the house, and there was peace among the animals.

It is estimated that of the amount carried on the books of the treasury, aggregating over $16,000,000, as outstanding fractional currency, less than half a million will ever be presented for redemption, the supposition being that the remaining balance has been burned, worn out or destroyed in various ways.

A correspondent, writing about Fort Richardson, Texas, which cost the government about $800,000, and which was permanently abandoned last spring, says the buildings are falling down and the place presents a sad appearance. This fort, during the years 1868-69-70, had the largest garrison in the United States. The hospital, it is said, cost $143,000, and is now a useless pile.

OREGON.

Junction City recently had a town election. Judge Thompson was elected recorder. The town is rapidly recovering from its recent loss by fire.

Mr. Liebe, a grocer of the Dalles, committed suicide at that place on Wednesday morning by drowning in a little stream only two feet deep. Financial troubles prompted the act.

A letter from Baker City informs us that the mail is decidedly out of time between Portland and that place The writer says "We take THE DAILY OREGONIAN for news and we should like to get it daily—at least occasionally Once an average once a week, it fails to come 'on time.' Some times it never comes. THE OREGONIAN of the 7th inst. has not arrived at all, and it contains, we presume all of the most interesting recent election returns This is why we write We are not happy over this subject"

Mr. J H. Bellinger of Marion county, grandfather of Judge C B. Bellinger of this city, died a day or two ago at Salem. A few days ago while in a buggy en route to Salem he was stricken with paralysis, but the horses being gentle plodded along regardless of their driver's unfortunate condition. When within one mile of their destination the team was stopped by a traveler who ascertained the invalid's situation, and taking charge of the vehicle drove into Salem and deposited the old gentleman at the Commercial hotel, where he subsequently died, unconscious of his surroundings and unable to articulate. Deceased was born in the state of New York in 1791, served with honor in the war of 1812 and emigrated to Oregon in 1847. He built the first canal boat in New York, over which there was a grand celebration, the late Josiah Failing participating, both at that time being young, vigorous men

MODERN MIRACLES.

Dr. C. M. Wood, the well-known healer, returns to his practice in Portland, after a rest of six months. His great cures of men, women and children, some of which were published in THE DAILY and WEEKLY OREGONIAN during last winter, has brought hundreds of letters from anxious sufferers, desiring information as to the permanency of his cures. In order to satisfy those desiring such information, he will publish from time to time through THE OREGONIAN the original certificates of cures, and when possible, to communicate with such patients, a certificate of their present condition. $1,000 forfeited if every cure he has ever published was not genuine as stated.

Dr. Wood

Will heal the sick of chronic diseases, at corner of Washington and Front street, Portland All curable diseases successfully treated when every other method fails. Dr. Wood cures by animal magnetism, and can point to the most wonderful cures ever performed by this method. *No medicine, no surgical instruments*—no pain whatever.

Cure of Dyspepsia and Chronic Diarrhea.

For the benefit of suffering humanity I deem it my imperative duty to make known to the public what has been done for me by Dr. C. M. Wood. Having been subject to dyspepsia for some 12 or 13 years, and continuing to grow worse until about four months ago, when it ran into chronic diarrhea and assumed a very dangerous condition—so much so that I found it would be compelled to stop my duties or find some relief, and having seen one of Dr. Wood's circulars, I concluded to consult him and finally to be treated by him for one month, the result of which I give in a few words; Feel that I am as sound as I ever have been, and that so far as my disease is concerned, I am perfectly cured. JOHN R CURRY.

Mailing Clerk, Oregonian Office.

PORTLAND, Oct. 31, 1878.

This is to certify that the above diseases, for which Dr. Wood treated me nearly one year ago, have never returned, and am as well to day as when the above certificate was written.

JOHN R CURRY.

Mailing Clerk of THE OREGONIAN.

Dr. Wood cures the following diseases. Chronic Liver Complaint; Disease of the Kidneys; Dyspepsia; Indigestion; Spinal Complaints; Pains in Side, Back, Shoulders, Hips and Chest; Headache, Neuralgia; Heart Disease; Rheumatism; Chronic and Acute Female Diseases and Irregularities, Sore and Weak Eyes; Deafness; Ringing in the head; Bronchial Affections Chronic Catarrh, and General Debility, caused by any of the above afflictions, at his rooms, southeast corner of Washington and Front streets, over O'Connor's store, up stairs.

A Debt of Gratitude.

"If ever a man owed a debt of gratitude, I do to Hall's Balsam for the Lungs. Three years ago I was with one foot in the grave and the other just ready to follow, with that dreadful disease consumption A friend of mine recommended Hall's Balsam as the best remedy. Thank God I tried it. The first bottle I used did me more good than all the physicians in Cincinnati, and I had all the best in the city. I continued to use Hall's Balsam until I had taken six bottles and to-day I am as well as any man in the city. You can publish this if it will do any good. H. PORTER

The above is one of many such letters that we receive. For coughs, colds and consumption, there is nothing equal to Hall's Balsam for the Lungs.

Silver—English standard, per oz. 9½ fine, 50¾.

The local monetary situation changes but little from day to day. Borrowers find that their applications are generally received with a good deal of scrutiny, but all such as will bear the test are promptly satisfied. Some complaint is heard on account of the slowness of remittances from the interior a fact which is attributed to the light movement in the grain crop, of which a smaller part has been sold than is usual.

Real estate matters continue to manifest a good deal of activity, and prices still tend upward both on eligible city and country property.

The general merchandise trade, as usual at this season of the year, shows some falling off, though the aggregate of transactions occuring is still very encouraging. Merchants generally in reviewing the business of the past season find but little cause for regret. Buyers have been in many cases cash purchasers, and as compared with other seasons, the losses in trade have been light.

In domestic produce, the week past has been tolerably active, with but few important changes in prices. Wheat has come forward freely and vessels at hand are having good dispatch. Fre ights to Europe are quoted low, but only an occasional vessel is disposed to accept current rates. A few lots of wheat, considerable in quantity and choice in quality, were sold early in the week at $1 70@1 70, but the market seems to have settled back to $1 65 or thereabouts at which good average shipping is sought after. Farmers are reported to be holding back for a better figure. The shipments of wheat to foreign ports since August 1st, have been only about half what they were for a corresponding period last year. Flour is being shipped to San Francisco quite freely, where the demand for best Oregon brands is active at full rates. The local trade in this staple is also quite active. Oats show some appreciation in prices, and choice lots are sought at 45 cents per bushel, though inferior grades range as much as 5 cents below. Other products are in fair demand generally, at the quotations given below.

HE HAS TAUGHT IN HIS

public and private lectures the true principles of health and life to both male and female. He has also warned them against habits that would be likely to produce disease, in plain and comprehensive language. But where he has found them crushed and broken down by disease, mentally and physically he has restored them to health and happiness, for it is well understood that without health there can be no happiness.

DR. BRENAN

has made a specialty in the treatment of the following diseases: Catarrh, Bronchitis, and all diseases of the throat and chest, by an entirely new system only known to himself. Diseases of the Kidneys and Urinary Organs, including Spermatorhœa, Seminal Weakness or premature loss of Manhood. In the treatment of these diseases he has made a world-wide reputation by his astonishing success, not only on this Coast but throughout the whole United States. Diseases of the stomach, bowels, liver and kidneys as well as all diseases of the blood and skin in the most speedy manner, and never fails to give relief at once, and permanently cures the case if he is applied to in time.

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints, and understands their delicate and refined organization, as well as the proper remedies which should be used to allay their suffering and restore them to perfect health.

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients' disease the moment he comes in contact with them without any aid from the individual. This accounts in part for his great professional success.

All surgical operations can be performed by his skillful hand, and the patient need not fear the result.

DR. BRENAN

will send to those living at a distance and who cannot well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing he patient personally, and will forward the proper medicines, or instruments, to any part of the country with full instructions and advice. Each letter requiring advice or list of questions, must contain two postage stamps.

Everything strictly confidential and honorable.

THE DOCTOR

has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify.

CAUTION.

Persons coming to Portland, requiring medical treatment of the proper kind, who desire to consult with me, will please beware of persons who may try to coax them away to other so-called Doctors, through pretended friendship for the patients. Look out for them; they are knaves, prompted by selfish motives and what they can make. Be sure and ask for DR. PAUL M. BRENAN, the *Medical Lecturer*, and read his sign on his door.
